EDUCATION

Bachelor of Engineering

Mae Fah Luang University
2024 - 2028 (estimated)

Bachelor of Electrical Engineering

Technological University, Thanlyin
2018 - 2023

CERTIFICATES

HCIA - Cloud Services
HCCDP - Solution Architecture
HCCDA - Cloud Native and DevOps
HCCDA - Tech Essentials, AI
AWS AI practitioner
AWS Cloud practitioner
OCI 2025 Certified Architect Associate

SKILLS

- HTML, Tailwind CSS, JavaScript
- React, Python, PostgreSQL
- Microservices Architecture
- DevOps practices
- SDL

ABOUT ME

Third-year Digital and Communication Engineering student with experience in full-stack development, AI data validation, cloud technologies, and QA. Skilled in React, Python, AWS, OCI, and DevOps practices. Passionate about building reliable software and pursuing software and cloud engineering roles.

EXPERIENCE

- AI Validator (Project-based)** *April 2025 - Oct 2025*
Global Walkers Co., Ltd | Remote
Validated thousands of AI-generated JSON and HTML records to ensure schema consistency and prevent UI rendering failures before production deployment.

ACHIEVEMENTS

- 2nd Runner at Hylife Hackathon** *October, 2025*
Marriott Hotel, Chiang Mai City
 - Developed IoT solution involving ESP32, servo motors, and OLED modules via a mobile app using Python
 - Designed and deployed a landing page to showcase the project
- Top Ten finalist, JIWC Game Development** *August, 2025*
Mae Fah Luang University, Chiang Rai City
 - Developed an award-winning Game UI using Spline and Unity
- 1st place, Global Atomic Quiz** *January, 2024*
Yangon Space Museum | Pyay Road, Yangon City
 - Won 1st place in a Global Atomic competition by designing and deploying a cloud-based web solution using React, Python, and AWS.
